## The Tuesday Flowers

Block 12

(10" x 10" sewing margins non included)

### General points:

The given measures for the cutting include the ¼" sewing margins, rounded up to 1/2" for both.

For the appliquéés, add your favorite sewing margin around the templates. *I personally applique the flowers à bord franc, without sewing margins but I line it with double-sided adhesive veil. For the stems, I make 3 bias as beneath.*

**The measures on the plans are without the seams.**

**Double-sided adhesive veil: Heat'n Bond from Therm-o-Web which is sold by PSR Quilt**

**CLOVER 12mm fusible bias tape maker ref 4013 and the 10mm interlining ribbon ref: 4042**

**CLOVER mini ion 8003EU**

**AURIFIL (Lana) cotton and wool thread**

### The cutting:

In a background fabric: 1 square A 10 ½" side

In 2 fabrics for the leaves: a total of 1 leaf B and 1 leaf C

In 3 fabrics for the stems D, E, F: a bias of 1" x 10" for each (measures of the bias non folded)

In a fabric for the petals: 3 pieces G

In a fabric for the center of the flowers: 3 circles H

### Realisation:

Pattern 1: On the square A, by transparence, report the motif to applique in the middle.

Sch 1

Pattern 2: Applique the leaves B and C in place according to your favorite method. On the video, I explain how to do the raw edge appliqué technique.

Sch 2

Pattern 3: Make each one of the stems D, E and F with the fusible bias tape maker n°12 and its 10mm interlining ribbon by Clover.

Applique the stem D in place. Keep a sewing flat margin with its two ends.

Applique the stems E and F by only leaving a margin on the upper end, the other one being neatly folded.

Then applique the pieces G, and then the circles H.
