Pattern 2: On a band of freezer paper, on one end, draw a  $4 \frac{3}{8}$ " diameter circle. Fold the freezer paper in 3 so that when you cut, you have 3 identical circles. Cut out by following the outline.

With the shiny side towards you, place and paste with the BOHIN stick glue the first circle of freezer paper on the back of the previous assembly in the middle. Cut off the excess of fabric by keeping a  $\frac{1}{4}$ " margin all around.

### Pattern 2

Pattern 3: With the CLOVER mini ion, fold the sewing margin on the freezer paper. Do the same with the 2 other flowers.

Draw a  $1 \frac{1}{2}$ " diameter circle on another band of freezer paper. Fold in 3 and cut along the outline. You obtain 3 small D circles of paper.

Stick each one on the back of a  $\frac{1}{4}$ " square, shiny side towards you. Cut off the excess of fabric at  $\frac{1}{4}$ " of the freezer paper.

Fold back the sewing margins with the CLOVER mini ion. You get 3 D circles that you will stick in the middle of each flower.

Pattern 4: To refer yourself, mark the diagonals of the square A (background), place the 3 flowers and the basket F. Draw the circumference. Make the 3 stems E with the CLOVER fusible bias tape maker. Applique them by referring to the previous marks and use an AURIFIL cotton threads of the same color as your fabrics. Cut off the excess of fabrics of the bands. Applique the flowers. Empty the back and take off the freezer paper of the pieces B, C and D.

Pattern 5: Applique the piece F on the two longest sides, with their small edges flat so that they don't stick out the seams.
