Fast method: for 2 two-colored squares, place, right sides together, 2 squares of 7.5 cm ($2\frac{7}{8}$ ") side, a light and a medium, on top of each other. On the back of the squares, draw a diagonal that fits the cutting line. Sew alongside this line, on each side, at a 7 mm ($\frac{1}{4}$ ") distance. Cut alongside the cutting line. Refold on the right side and iron.

Traditional method: for 1 two-colored square, assemble 2 triangles A (1 light and 1 medium).
